

BRIHANMUMBAI MUNICIPAL CORPORATION
Hydraulic Engineer's Department - Bhandup Complex

Subject	:	Replacement of Pneumatic Actuators of 300mm dia. Butterfly Valve installed at Air Scour line at Filtration Plant Bhandup Complex
Reference	:	Bid No. 2026_MCGM_1321229_1, Prebid Meeting dated 12.08.2026

Minutes of Prebid Meeting

Sr. No.	Query Raised By	Query in detail	Suggestion by the participant vendor	BMC's Reply
1	M/s. K. Rajesh & Company	M/s. K. Rajesh & Company requested that the Circular of year 2015 for the approved makes to be followed for this tender as BMC has consistently clarified in all earlier tenders that the makes shall be as per 2015 Circular except valve tenders	----	The Circular of 2015 for the approved makes has been followed for the captioned subject work incorporating Pneumatic Actuators, independently and the reference of Valve tender doesn't falls under the purview of the captioned subject tender. Hence, No change has been done and the prescribed Tender Condition prevails.
2	M/s. Virgo Specialities PVT LTD	AS per Part B Technical Specifications the department has specified makes for Actuator is AMRI (ACTAIR EVO) / Festo / Vag-Pasak /	To Allow approved make Actuator with their offered specification i.e. allow VAG brand actuator as per VAG	The makes mentioned in the tender of the Captioned Subject work, are taken from the enforced Circular wherein the Approved Makes are given for the Pneumatic Actuators.

		Bettis. However, further detailed specifications mentioned in Tender does not match the offered companies manufacturing specifications and given specifications only qualifies one brand i.e. Festo. This gives a clear indication of buying Festo brand Actuator through the Authorised, Dealer as given other company make being offered will not stand / meet the specification asked in the tender.	manufacturing standard. We shall provide all the guarantee as desire in the tender.	Regarding the specifications, it is clarified that the said specifications are based on the Minutes of Meeting of the Technology Advisory Committee (TAC) which was held for the replacement of Pneumatic Actuators installed at M-IIIA Filtration Stream at Pise Panjarapur Complex. Hence, the Tender Conditions prevails.
3	M/s. Virgo Specialities PVT LTD	Upon the given clarification regarding the specifications, M/s. Virgo Specialties replied that the mentioned TAC committee was held only for the M-III-A Filtration Stream at Pise Panjarapur	----	It is informed that the M-IIIA Filtration Stream at Pise Panjarapur Complex comes under the purview of Hydraulic Engineer (H.E.) department as that of Bhandup Complex. Hence, the TAC report can definitely be used for the captioned Subject Work to

		Complex and the same not be considered for the Captioned Subject Work to be carried out at Bhandup Complex		be carried out at Bhandup Complex for the similar type of work. Also, the reference for the TAC was taken from the then completed work of replacement of Pneumatic Actuators at Filtration Plant Bhandup Complex. Hence, the Tender Conditions prevails
