Hydraulic Engineer's Department

Sub:- Supply work of Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets at stage III Settling Plant, Panjrapur.

SCOPE OF WORK, TECHNICAL SPECIFICATIONS AND INSTRUCTIONS TO TENDERER

PREAMBLE:

Pise- Panjrapur Complex installation is one of the vital installation of BMC. Approximately 50% of the water supply (around 2005 MLD) to Greater Mumbai is supplied daily from the Pise Panjrapur Complex. The construction of Pise Panjrapur Complex was carried out in stages by Water Supply Project (WSP) Department. Stage-I, II, III and MIIIA were completed and commissioned in the years 1979, 1986 and 1997 and 2007 respectively. The Operation and Maintenance of Stage-I, II and III of Pise Panjrapur Complex is being carried out by the Department of Deputy Hydraulic Engineer (Pise Panjrapur Complex).

The Water Treatment Plant at Panjrapur an important establishment. This includes various plants such as Master Balancing Reservoir (MBR) Control Room, 100 KV Electrical Sub-Station, Pumping Station, Settling Tank, Filtration Plant, Laboratory, Chlorination Plants at Panjrapur & Yewai for uninterrupted water supply to Greater Mumbai, which are continuously working 24 x 7 without interruption. Each plant has its own importance.

The Stage-III Water Treatment Plant comprises six settling tanks equipped with twenty-four scraper units designed for continuous sludge removal in order to maintain the required turbidity and quality of settled water. The scraper mechanism consisting of scraper motors, shafts, moving blades, and sliding plates operates over **Ultra-High Molecular Weight Polyethylene (UHMW-PE)** sheets, which serve as essential low-friction guiding surfaces to enable smooth and uninterrupted movement of the scraper plates. Due to prolonged service, the existing UHMW-PE sheets have deteriorated and are causing increased friction, irregular scraper movement, and a high risk of

sludge accumulation, which may adversely affect the settled water quality and overall plant performance.

In view of the above and to ensure reliable operation of the sludge-removal system, it is proposed that new UHMW-PE sheets of suitable dimensions and specifications be procured and installed at the earliest. This replacement is necessary to restore efficient scraper function, prevent operational breakdowns, safeguard water quality, and maintain uninterrupted functioning of the Stage-III Settling Plant.

Function & Working of UHMW-PE sheets:- The Ultra-High Molecular Weight Polyethylene (UHMW-PE) sheets installed in settling tanks function as low-friction guiding surfaces for scraper sliding plates, ensuring smooth and uniform movement of scraper blades and shafts while preventing direct metal-to-metal contact. Their abrasion resistance and durability reduce operational load on scraper motors, minimize wear on mechanical components, and protect against premature damage.

Breakdown: These sheets are highly resistant to water and chemical exposure, making them ideal for submerged environments, and their proper functioning is essential for continuous sludge removal, preventing sludge accumulation, and maintaining turbidity and water-quality standards. By supporting efficient scraper operation and reducing maintenance needs, UHMW-PE sheets play a critical role in ensuring reliable performance and operational efficiency of the settling plant.

Availability of Material:- The Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets are not available in the store. A small quantity was purchased through imprest. These sheets will be required during the yearly maintenance work.

Hence it is proposed to carry out the work of "Supply of Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets at stage III Settling Plant, Panjrapur".

I. SCOPE OF WORK & INSTRUCTIONS/CONDITIONS:-

1. The tenderer shall visit the site, preferably prior to submitting their offer to get acquainted themselves of the site condition/constraints, nature of the work involved & the actual site & work requirement. Site visit shall be done on working days (with atleast one day prior intimation) between 9 am to 3 pm (Monday to Friday) and 9 am to 11 am (Saturday) in presence of site engineer only. Site visit report as per Annexure-H shall be submitted along with Packet-B documents while submitting the tender. The tenderer shall go through the full Tender Document thoroughly and fully review the technical specifications, Bill of Quantities & nature of the work, and resolve all doubts and queries with the BMC engineers before submitting the quotation. No claim regarding this, whatsoever will be entertained at later.
2. The technical specifications for the entire work included in this quotation are prepared with care with a view not to create any additional work. However, all the items and works which are required for satisfactory completion and guaranteed performance of the system are deemed to be included in the offer and no extra cost will be paid by Brihanmumbai Municipal Corporation (BMC).
3. The successful quotationer shall supply Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets as per scope of work and technical specifications.
4. The supply of material shall be strictly as per bill of quantities & Technical specifications. The successful quotationer shall get approved the material from BMC before the supply of material at site. The delivery of **Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets** along with all accessories, fitments, etc. shall be given by the successful quotationer at Settling Plant, Panjrapur Water Treatment Plant, Post-Vadpa, Taluka-Bhiwandi, District: Thane, Pin Code – 421302, State-Maharashtra, at no extra cost. All necessary charges towards packing, transporting, handling, transit insurance, taxes, duties etc. shall be included in the bid offer by the successful quotationer. All the charges towards transportation of material, Machinery/equipments, personnel, transit insurance, incidental expenses and all other taxes and duties shall be borne by the successful quotationer. No extra charges whatsoever, will be accepted under any circumstances.

5. Material Testing

The successful quotationer shall submit copies of Manufacturer's test certificates of **Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets**.

6. Successful quotationer shall submit the proof of original purchase through the Manufacturer or authorized dealer/distributor and Manufacturer's test certificates of **Ultra-High Molecular Weight Polyethylene (UHMW-PE) Sheets** at the time of billing.

7. Payment Terms: As per condition No. 17 of quotation document.

8. Penalty : As per condition No. 19 of quotation document.

9. Maintenance Gurantee & DLP

Successful quotationer shall submit maintenance guarantee for one year in prescribed format on Rs 100 stamp paper.

The defect liability period (DLP) for this work will be 1 year. During the defect liability period (DLP), the completed work shall be inspected, periodically by the site staff along with the successful quotationer and defects noticed if any, shall be got rectified immediately from the successful quotationer as per provision of contract. The above compliance report shall be mandatory prerequisite before releasing the deposits of the work. If quotationer failed to do so, Contract deposit will be forfeited.

If any discrepancy in the material supplied or work carried out is observed during erection and commissioning of the equipments or in defect liability period, and informed to the successful quotationer in writing, then the successful quotationer shall have to rectify the defect/discrepancy or replace the equipment/material at his own cost. If quotationer failed to do so, Contract deposit will be forfeited.
