FOREWORD

The Municipal Corporation of Greater Bombay is an autonomous Body, established under the provisions of Bombay Municipal Corporation Act, 1888 to administer the civic affairs of the Bombay City. The Municipal Commissioner is the Chief Executive Head of this Body and is responsible for providing and maintaining civic services in the city.

As per the provisions of Bombay Town Planning Act, 1954, it was necessary for the Municipal Corporation to prepare a Development Plan for Greater Bombay area. Such a plan was, therefore, prepared which came into force in 1967. This Development Plan was for a period of twenty years i.e. 1967 to 1987. This Development Plan however, was not effective as it did not involve any public participation and rolled entirely on the Municipal Corporation to generate resources to meet the cost of acquisition of land, removal of encumbrances and development of the amenities. Moreover, there was no specific provisions available to raise the funds solely for the purpose of implementation of the Development Plan.

Keeping in view of the weaknesses of the First Development Plan, the Municipal Corporation has now revised the said Development Plan. The Revised Development Plan has already come into force and is effective upto year 2001. This plan involves public participation and there are such provisions in the said Development Plan and the Development Control Regulations, 1991, sanctioned alongwith the said plan that it would be possible now for the Municipal Corporation to implement the said plan without such financial liability.

It is felt that the citizens should be made aware of the broad outline of the Development Plan and the Development Control Regulations, 1991, so that they would be able to understand and participate more effectively in the implementation of the said Development Plan.

For the sake of convenience and to make it more effective, it is proposed to prepare a booklet 'Know Your Ward Development Plan' for each Municipal Administrative Ward and print it for the benefit of general public.

We have great pleasure to publish the booklet in this series titled 'Know Your Development Plan for 'L' Ward'. We are sure that it will help citizen to understand the basic characteristics of 'L' Ward' the amenities already existing in the Ward and the amenities proposed to be developed in the Revised sanctioned Development Plan. It is hoped that the citizens would make full use of this booklet and help the Municipal Corporation in implementing the Development Plan for betterment of this great metropolis.

KNOW YOUR WARD

'L' WARD

DEVELOPMENT PLAN

1. BACKGROUND :

Three and half centuries ago, Bombay was a group of seven tiny islands predominantly inhabited by Kolis and the main trades were fishing, agriculture and coconut plantation etc. In 1667, these islands were taken on lease by the East India Company, for the purpose of trade and commerce. They established a port, being the most suitable location and the same was constructed where the Gateway of India stands today. This started the development of Bombay City, which has now grown into metropolis.

Earlier the limit of Municipal Corporation was confined to City area only. The Suburban areas which are now comprised of L, M, N, H and K Wards were merged and brought within the jurisdiction of the Corporation in the year 1950, whereas the extended suburb areas comprising of N, T, P & R Wards were merged within the Corporation limit in the year 1957. With the passage of time with all around development the area within the jurisdiction of the Corporation now called as Greater Bombay has grown into the Great Metropolis with the population of around 1 crore.

The City has been divided into administrative wards for the purpose of Local administration. With the passage of time larger wards were subsequently sub-divided and today are 23 administrative wards for the purpose of local administration. The 'L' ward is the south-eastern ward of the suburbs. It admeasures about 15.88 sq. kms. in area. It is bounded by the Tansa Pipeline, Vikhroli and Ghatkopar Hills on the east, the Mithi River on the west by Sion Creek on the south and by Powai area on the north side. As per census of 1991 population of 'L' ward is 6,12,651.

2. CHARACTERISTICS :

The entire area of 'L' Ward is bifurcated in two parts by Central Railway Line known as Kurla (East) & (West). 'L' ward is comprised of small villages like Kurla, Mohili, Asalpha, Tungwa, Saki and Kiorl. East side of Kurla is developed with M.H.B. colony known as Nehru Nagar and West side is developed with residential and industrial development. Large industries like Larsen & Tubro, Snowcem, Premier Automobile, Mukund Iron, Mahendra & Mahendra, Kamani Engineering, Swadesi Mills are situated in 'L' ward. One of the Government Milk Dairy known as 'Mother Dairy' is situated in East of Kurla area. The Mithi River carrying most of the storm water drain and industrial effluent of some of the

industries is passing on Western Boundary of L-Ward. The area known as old Kurla on West side is mostly occupied with slums and scrap dealers. The Kurla (East) is however, developed very nicely by M.H.B. Colony like Nohru Nagar and Pvt. Layout at Chunabhatti. On both the sides of Saki-Vihar road and Kurla-Andheri road different types of industries are developed.

2.1. The 'L' Ward is properly served with network of roads which included five major roads namely :-

1. Lal Bahadur Shastri Marg
2. Kurla-Andheri Road
3. Eastern Express Highway
4. S.G. Barve Marg and
5. Saki Vihar Road

L-Ward being the entry ward into the suburbs, the vehicular traffic uses, these roads either to reach other destination in suburbs or for going out of Bombay. L-Ward also provides a link between Eastern and Western Suburbs through S.G. Barve Marg which connects to Santacruz area. In order to improve road some portion of Lal Bahadur Shastri Marg is also concretized.

2.2 In L-Ward, very near to station, Municipal Office and Market is developed. On Northern end of Ward in Chandivali village, a film studio known as Chandivali Studio is an added attraction. The surroundings area of this studio is now under new development like skyscrapers buildings and big

layouts. Central Rly. authorities have recently developed an additional Terminal at Kurla in 'L' ward for long distance trains.

3. DEVELOPMENT PLAN - 1967

As per the provisions of the Bombay Town Planning Act 1954, the development plan of Greater Bombay was first prepared by the Municipal Corporation for the areas within their Jurisdiction. The development plans of various wards were sanctioned in the year 1967. Accordingly, the development plan of L-Ward was sanctioned in the year 1967. The development plan included zoning for residential, commercial, industrial and no development zone. It also includes reservations for various public amenities and utilities, and number of reservations are proposed. It also included a proper network of proposed roads.

3.1. Due to financial stringency and various other constraints, the development plan of 1967 could be implemented to a very small extent by the Municipal Corporation. As a result only very few reservations could be developed in this Ward.

4. REVISED DEVELOPMENT PLAN - 1991.

After sanctioning of the earlier development plan, there were number of changes in policies, which were taken into account while preparing the development plan. Further in the meantime, the M.R. & T.P. Act came into

force replacing Bombay Town Planning Act, 1954, which also provides for appointment of a Regional Authority. The Govt., therefore, appointed Bombay Metropolitan Regional Development Authority to look after the development of various areas surrounding Bombay and also lay down policies and guide lines for development within City of Bombay.

Taking into consideration these changed and being obligatory function under the M.R. & T.P. Act, the development Plan of Greater Bombay has been revised, which has been sanctioned by the Government from time to time in the recent past. The sanctioned revised Development Plan of L-Ward, has come into force from 2nd July, 1992.

4.1. The State Government has also sanctioned the Development Control Regulations, 1991 and the same have come into effect from 25.03.1991.

4.2. The list of existing amenities and sites reserved for proposed amenities is given in Appendix I. This is a summary statement which includes the number of existing and proposed amenities and the corresponding area in Square meters. Further the entire 'L' Ward is having 66.94%, 2.89%, 26.36% and 3.8% of area in Residential, Commercial, Industrial and No Development Zone respectively.

5. IMPLEMENTATION OF REVISED DEVELOPMENT PLAN :

The revised Development Plan is for a period of 20 years from 1981 to 2001. Due to several procedural difficulties, the plan came to be sanctioned only in 1992. As such a short time is available for implementation. It will be therefore, necessary for the Municipal Corporation to prepare a phase-wise programme to develop the amenities shown in the Development Plan within the plan period.

6. MECHANISM FOR DEVELOPMENT :

The proposed amenities can be developed in the following manner.

6.1. The Municipal Corporation can acquire the plot under the provisions of the M.R. & T.P. Act, remove the encumbrances thereon by rehabilitating the authorised occupants elsewhere and developing the amenity as per the requirement of the Local population. The Corporation has to incur the cost of acquisition, rehabilitation and development. This was the basic principle adopted for implementation of the Development Plan sanctioned in 1967. As the Municipal Corporation could not provide adequate financial resources, the amenities could not be developed to the desired extent. In order to facilitate development of various public amenities and facilities specific provisions have been made in D.C. Regulations which

will speed up the development of such reserved sites for the specific purposes without incurring any expenditure by the Corporation and will minimize acquisition procedure which is costly and time consuming.

6.2. Under Regulation No. 9, a list of public amenities has been given which can be developed by the owner and handed over to the Municipal Corporation or other Appropriate Authority as the case may be, free of cost. The owner can then develop the plot for the permissible users in the zone, to its fullest extent (treating the amenity free of F.S.I.). Thus, the Municipal Corporation or the Appropriate Authority will get the constructed amenity without incurring any expenditure. The said regulation also empowers the Municipal Corporation to hand over the constructed amenity to any registered institution or trust for operation and maintenance. Due to this regulation, many reservations such as Shopping Centre, Retail Market, Parking Lot, Dispensary, Health/Welfare Centre, Maternity Home, Municipal Chowky, General Hospital, Library etc. will be available to Corporation for benefit of public at large.

6.3. An important provision has been made under the D.C. Regulation No. 34 for grant of "Transferable Development Rights" (TDR). Under this provision, if the owner removes the encumbrances on the plot under reservation, levels the

plot under reference puts a compound wall with a gate and hands it to the Municipal Corporation or the State Government as the case may be, free of cost, he is entitled to get the development rights in the form of full F.S.I. of the plot handed over, to be used elsewhere. For the purpose of utilization of the transferrable F.S.I., the Greater Bombay area is divided into 2 zones i.e. Receiving Zone and Non-Receiving Zone. As such, transferable F.S.I., can be used only in the receiving zone. The entire city and the area between the S.V. Road and Western Express Highway in the Western Suburbs and area between Lal Bahadur Shastri Marg and Central Railway Main Line in the Eastern Suburbs have been placed in the non-receiving zone. The transferable F.S.I., therefore, will not be allowed to be used in these areas. This provision will enable the Municipal Corporation/State Govt. to take over plots free of cost, for which the benefit of D.C. Regulation No. 9, (accommodation reservation) is not available.

6.3.1. The D.C. Regulation No. 34 also allows the owner to hand over the plot as specified above along with the constructed amenity thereat, as per the requirements of the concerned authority. Under such circumstances, the owner is entitled to have further additional F.S.I. (Transferable) equivalent to the built up area of the amenity constructed. This Regulation No. 34 not only provides for taking over the reserved plot free of cost

but also enables the concerned authority to get the amenity constructed thereon, free of cost.

6.3.2. As far as 'L' Ward is concerned, the same being southern most wards of Eastern Suburbs, T.D.R. generated in this Ward will be available in further Northern wards of both the Eastern and Western Suburbs and hence, many of the reservations/D.P. roads will be available to Corporation for development by taking advantage of T.D.R. However, L Ward, can also receive the T.D.R. generated from City Area. Hence the development activity in this ward will be greatly generated.

6.4. As regards the sites reserved for public housing/high density housing, the D.C. Regulation No. 9 allows this reservations to be developed by the owner subject to certain conditions. The most important condition being that 10% of the tenements of 180 sq.ft. carpet area to be handed over to the Municipal Corporation for accommodating the Project affected people who are required to be shifted due to the development of reservation, including widening of roads etc. The owner however, is entitled to get the construction cost of each tenement plus 15% profit thereon. Public Housing reservations in the Ward could be developed by taking advantage of this provision.

7. AUTHORITIES RESPONSIBLE FOR IMPLEMENTATION :

Since the revised Development

Plan is required to be implemented within a span of years, it is necessary that the proper phase-wise programme is prepared taking into consideration the priorities of the local population. It is, therefore, advisable that the entire Ward is divided into suitable sectors and the priorities are fixed for development of amenities therein. Based on these sectorwise priorities, a final priority list for the entire Ward can be prepared. Since the preparation of priority list is directly related to the local needs, the W.Os/Zonal D.M.Cs should prepare such a priority list in consultation with sectional heads in the ward and the local councillors, elected representatives and Local Community.

7.1. The Office of the Ch. Eng. (Development Plan) will prepare yearwise priority for availing T.D.R. and publish the same for the benefit of owners of the reserved plots (such publication of yearly priority list of availing T.D.R. is obligatory under the provision of D.C. Regulation No. 34).

7.2. It will also be necessary to take timely steps to develop the plots made available under the T.D.R. facility or to put to use the constructed amenity either under T.D.R. facility or under accommodation reservation. The zonal D.M.C., W.O. and the Local Councillors will have to take a lead and play a constructive role in fuller implementation of the Development Plan of the Ward thereby making available amenities and facilities to residence of the locality.
